

# WeRateDogs - Act Report

By : Mohamed Mohamed abdraboh

NOV.2020

We've data took from WeRateDogs an account on twitter

That rate dogs with funny comments about the dogs

This account was started in NOV.2015 ,Gained a huge popularity that its community (followers) in NOV.2020 become 8.8 Mil

And this report is talking about analysing This data, which was collected

From

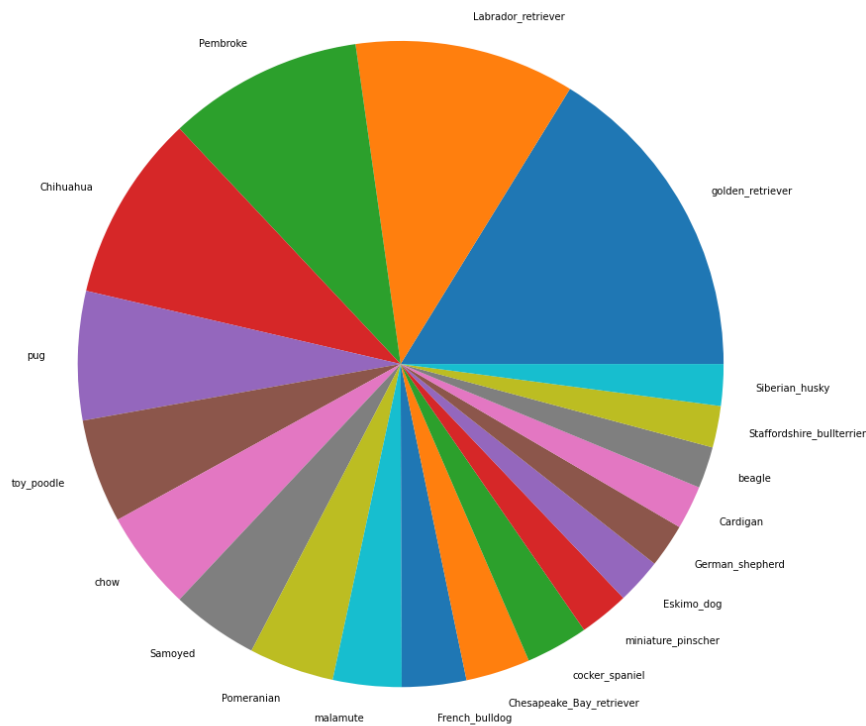

the date since 2015-11-15 untill 2017-08-01.

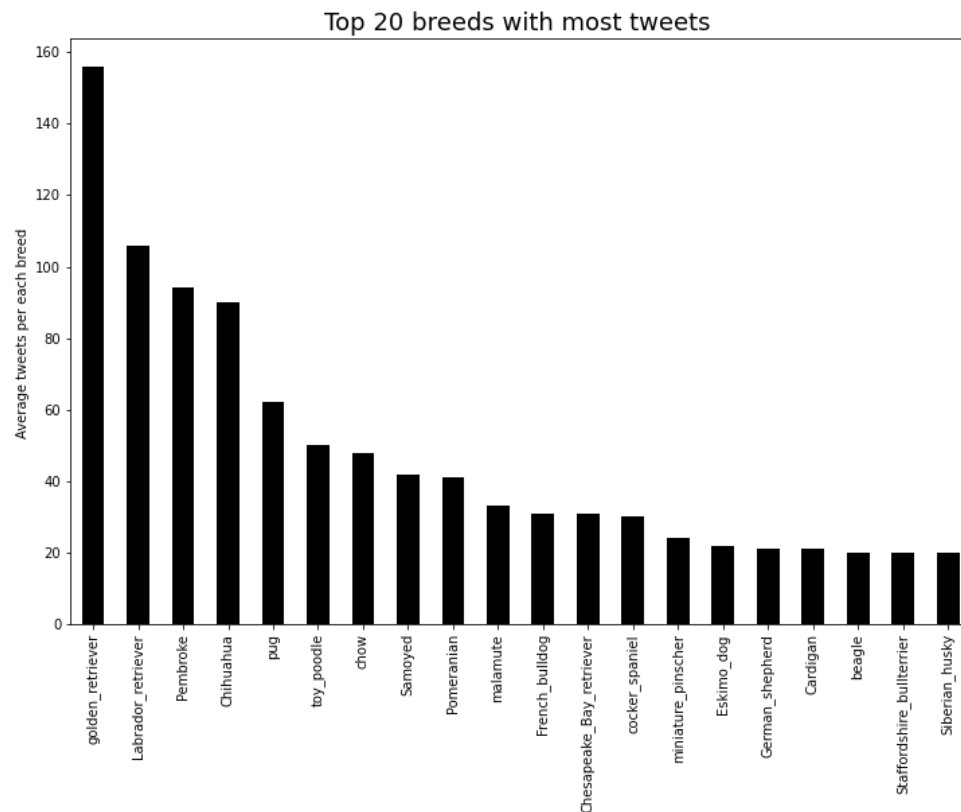

I thought about some questions while wrangling these data

**Which breed is very famous in this community ?**

I searched and i found that there were 113 breeds tweeted about  
I wanted to know which of these is the most popular breed among this community turned out

Top 20 breeds with most tweets

The first dog with 156 tweets is **Golden retriever**

as a fan of German shepherd breed I didn't expect that how low its tweets are.

compared to others , I searched more about german shepherd and I found that there is only 21 tweets with avg likes 128 and dog score 11/10 not popular like what I expect.

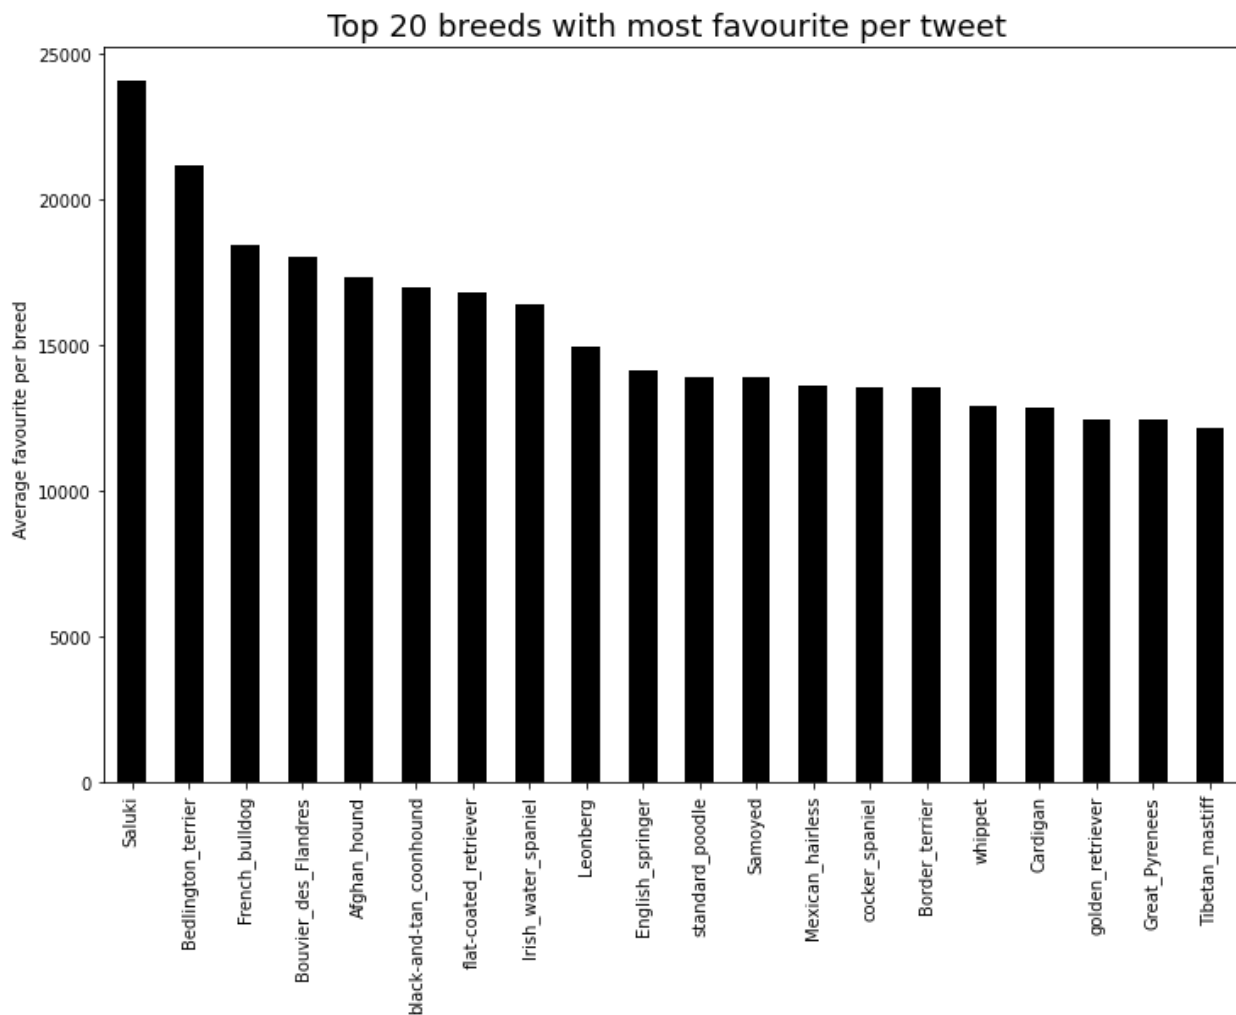

like this I would change my mind maybe there are better

breeds than German shepherd so lets check retweets and favorite maybe we will get our answer there .

---

Which breed with most avg likes[favourite] ?

---

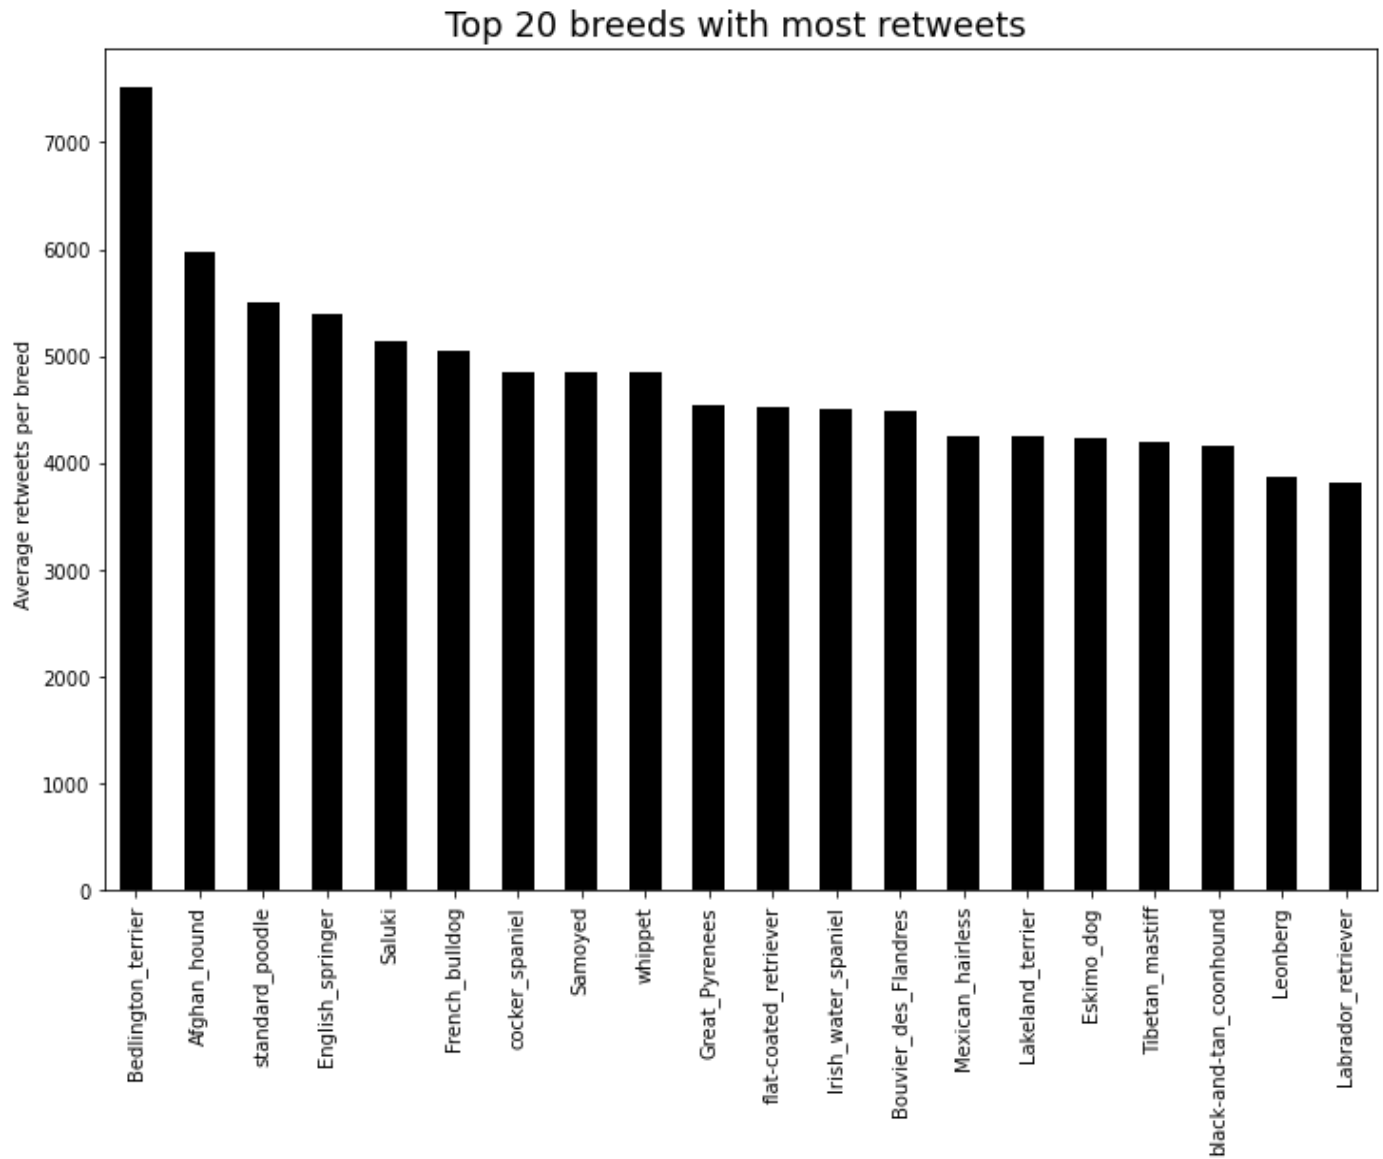

turned out that golden doesn't have the most avg number of likes

But its **Saluki** I didn't know this breed so I searched online and I was surprised that its origin middle east and I was wondering where are they as I didn't see anyone of this breed before in my hometown Egypt.

---

What about retweets ?

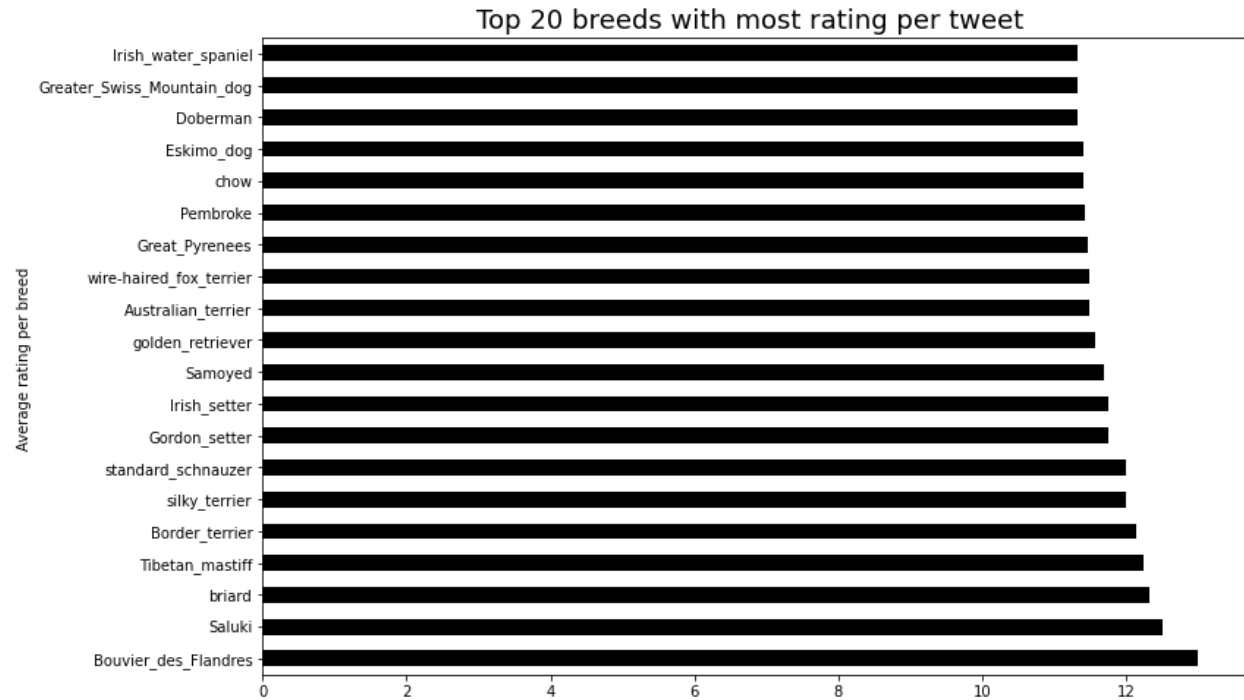

First one Bedlington\_terrier interesting , I've searched about this breed and its look is very exotic I thought it's a small sheep at beginning but its look so cute and I wonder if I can found one here ,lets continue .

---

What about most avg rating ?

---

Its Bouvier\_des\_Flandres with avg rating of 13/10.

Seems difficult to choose but I got a lot of nice info out of this data and specially the different breed that I didn't see in my life or hear about .

---
